

Mystons - Destination Death

Lyrics: Mauri Myston

Music: Mystons (John Myston, Mauri Myston)

The End Of Days

while my heart hammers DOOM, DOOM, DOOM

Can't tame the demon in me

Death Becomes Your Bride

Hand Of Doom

Hollow man

The Ocean of pain

Time

what will You Do when It's Time To Die?

King Of Pain

Don't be afraid

The End Of Days

--

The End of Days are beneath us
The sirenic waters where no man has gone
to sail the waves brave with fear in your guts
To murder the monster, engrave your name to immortals wall

The hunt has begun
horrors you imagined are not enough
a white incubus of the ocean
this thing insane will swallow you down

Kraken-like beast bears the name of Octoth
A bastardish breed of Octopus and Mammoth
8 oak size tentacles that burn like napalm
white ivory tusks, tear-force of an a-bomb

while my heart hammers DOOM, DOOM, DOOM

I got the curse of Midas touch
but my gold is like plaque from my guts
If you enter my mind's gloom shop
The stink of death follows you from that day on

I can't escape from what I am
And I am just a man
with the devil in my hands
I see the others
their hearts beat boom, boom, boom
while my heart hammers
DOOM, DOOM, DOOM
DOOM, DOOM, DOOM

Trustworthy is my misery
I know that it will never leave
Time deepening the wounds within
in the torture hall of memories

I can't escape from what I am
And I am just a man
with the devil in my hands
I see the others
their hearts beat boom, boom, boom
while my heart hammers
DOOM, DOOM, DOOM
DOOM, DOOM, DOOM
DOOM, DOOM, DOOM

I can't escape from what I am
And I am just a man
with the devil in my hands
I see the others
their hearts beat boom, boom, boom
while my heart hammers
DOOM, DOOM, DOOM
DOOM, DOOM, DOOM
DOOM, DOOM, DOOM
DOOM, DOOM, DOOM

Can't tame the demon in me

--

Can't tame the demon in me

Can't tame the demon in me

Can't tame the demon in me

Can't tame the demon in me

He's the ancient one

temptations little child

An epic primal animal

a hell-hound of my mind

the black hole in my universe

a leech that feeds on light

A Freddy Krueger replicated

"mare" of my night

I've been waiting for so long

for things to turn alright

but the demon got settled to my soul

but I won't let go without a fight

Can't tame the demon in me

Can't tame the demon in me

Can't tame the demon in me

Can't tame the demon in me

He's the beast in me

the monster in my brain

A brutally captured raging thing

the "in" in all things sane

My head a cage too small for it

I need to let it out

Pistol is the only key

and the lock is in my mouth

Can't tame the demon in me

Can't tame the demon in me

Can't tame the demon in me

Can't tame the demon in me

Death Becomes Your Bride

--

Time has taken control over your soul
and shipped you on towards the final road
all is gone and everything is done
You're not afraid to look into her eyes anymore

She has come for you
the wedding day is due
all she wants to have
is your eternal hand

To believe is to live
To give in is to die
when pain becomes your closest friend
Death becomes your bride

Nothing you can take from here when it's all done
Your mistakes, your fortunes, your deeds all gone
Memory stays with those that are left behind
Like an uncomfortably strangling tie

Together finally
one with eternity
like husband and wife
death and life

To believe is to live
To give in is to die
when pain becomes your closest friend
Death becomes your bride

Hand Of Doom

--

It's coming down on us
like black waste oil rain
so heavy and cruel
destroying everything
takes away all of those you have ever loved
all your precious ones

The Hand Of Doom

Hand Of Doom

Crushing me, crushing you

Hand of Doom

Like cancer eating our cells
a ray of light coming from hell
taking our false hope
The finger's pointed at you
black nails piercing through your happiness
installing loneliness

No more can I trust anyone

Those that are here are already half-gone

The Hand Of Doom

Hand Of Doom

Crushing me, crushing you

Hand of Doom

Hollow man

--

I want to introduce you my kingdom of nothingness
where the queen of wounded dreams
hides in the shadows of Happiness
where the soldiers of lost love
greet the king of emptiness
where the Duke of broken hearts
cried so many tears he's sorrowless

A Hollow Man
Like a hologram
A hollow Man
Like a hologram

I drank from the cup of desire
I sat down with the demon of need
but pleasure burned like slow acid
carved a cave within me

A Hollow Man
Like a hologram
A hollow Man
Like a hologram

Ocean of pain

--

So fucking alone
I thought I could go on on my own
but life never is
the way I thought it would be

Since the day I got born
something was wrong with me
or at least that's what I heard
my mother say

In this Ocean of Pain
I'm swimming again
with sharks and rocks and razorblades
I'm bleeding inside
these years gone by
have left me nothing but scars
laid out by time
side by side

You were hurting me
so I hurt you too
when forgive is what we should
revenge is what we'll do

The Ocean of Pain
salt to my wounds again

What will You Do When It's Time To Die?

--

Dead autumn leaves are falling down
a scent of loss on rotten ground
with red yellow maple leaves
I'll decorate my grave
and engrave a stone for it
so they won't forget my name

I can already feel
the future's footsteps on my tomb
the next generation
quietly preparing
for their own doom

What will you do when it's time to die?
What will you do when it's time to die?
Will you scream in fear or
drown in your loved one's tears?
What will you do when it's time to die?

I remember I loved you
and nothing else mattered then
but within every beginning
there's an echo of an end
In the newborns eyes
the borderlands of life
in the old man's stare
the oceans of time

What will you do when it's time to die?
What will you do when it's time to die?
Will you hover towards the light
or join the phantoms of the night?
What will you do when it's time to die?

I know you cannot hear me but you can feel my presence
In the color losing memories, under the pressure of silence
The secret to life is to accept every moment as your death
Dreams cannot be undone, don't wound your spirit with regret
Listen to the voice inside you it knows every answer
In nature is the key to the cycle of life
understanding the larger scale
of a time to live a time to die

Time

Time can break your soul
Time can heal your wounds
Time can make you wait
But it won't wait for you

The future's unsure and the past is gone
so let the moment embrace you in her arms
The things that you have felt before
will never feel the same again

Them troops are gathered at the border
the beast is surrounded to the corner
they've got enough ammunition
to blow up china's great wall

when right is wrong and wrong is right
but that may change with the course of time
the things that you have seen in your life
repeat in history again

King Of Pain

--

So you're thinking that it's over and out for me
that I have lost my way and will to live
Life's a box of chocolates but someone changed
the contents of mine to razorblades

I am the King Of Pain
torturing myself insane
Now you know my name
I am the King Of Pain

Have you ever tried them suicidal boots
The ones that give you
A radiation poisoning blues
Once I took a stroll around with them
but I came back stronger than ever

I am the King Of Pain
torturing myself insane
Now you know my name
I am the King Of Pain

I am the King Of Pain
(he's the King Of Pain)
torturing myself insane
(heil the King Of Pain)
Now you know my name
(you're the King Of Pain)
I am the King Of Pain

Don't be afraid

Close your eyes now
it's the last time you will
it's time to go now
too soon it may seem
but the man is looking for
those that don't look for him
no more goodbyes
no more nothing

Don't be afraid now
when it's all about to end
You travel to the darkness
and back into to the light again

You lived a good life
you've done more than most
you traveled here and there
and your kids they love you so
in your old man's wisdom
you've learned to take life as it is
so why so hard now
to accept the last part of it

Don't be afraid now
when it's all about to end
You travel to the darkness
and back into to the light again

Don't be afraid now
when it's all about to end
You travel to the darkness
as in life it was your friend
